OBJECTIVE

Motivated **Backend .NET Developer** with hands-on experience in building scalable APIs and enterprise systems using **.NET 6/8, C#, SQL Server, and Angular**. Passionate about clean architecture, performance optimization, and delivering maintainable software solutions. Seeking to join a growth-oriented company where I can contribute to backend development, system design, and cross-functional teamwork.

EDUCATION

- Faculty of Engineering, Minia University – Egypt** Oct 2017 – Jul 2021
Bachelor of Computer and Systems Engineering (CSE)
Graduation Project: *Internet of Things for Secure Automotive – Grade: Excellent*
Overall Grade: Good

EXPERIENCE

- Protech Company (Remote – By Project)** Jun 2024 – Present
Backend .NET Developer
 - Developed and maintained **RESTful APIs** using **.NET 8** to serve multi-tenant applications.
 - Improved API response time by 35% through query optimization and caching strategies.
 - Implemented JWT authentication and Role-Based Authorization for secure access.
 - Collaborated with frontend teams to integrate Angular interfaces with backend services.
 - Key Technologies:** .NET 8, ASP.NET Core API, C#, SQL Server 2022, Identity, Visual Studio 2022.
- Toq Information Technology (Saudi Arabia – Remote)** Dec 2024 – Aug 2025
Backend .NET Developer
 - Designed and deployed .NET API and Angular-based systems for business automation.
 - Enhanced system scalability and security, resulting in 25% faster data transactions.
 - Built modular backend components following SOLID and Repository Pattern principles.
 - Maintained version control and CI/CD pipelines using GitHub Actions.
 - Key Technologies:** .NET 8 API, Angular, Entity Framework Core, SQL Server, SignalR, Automapper.
- Nasa Technology (Remote)** Feb 2024 – May 2024
NET Web API Developer
 - Worked within a cross-functional team to deliver .NET 6 Web API + React solutions.
 - Developed backend endpoints and business logic for real-time systems.
 - Implemented Unit of Work and Repository Pattern to improve maintainability.
 - Supported integration testing and improved error handling for production deployment.
 - Key Technologies:** .NET 6 API, C#, React, EF Core, SQL Server 2022.
- Freelance .NET Developer (Remote)** 2023 – 2024
Full Stack & Desktop Developer
 - ELearning Platform**
 - Developed an online learning system that enables instructors to publish courses and students to enroll and track progress.
 - Designed secure authentication and role-based dashboards using .NET Identity.
 - Achievements: Improved system performance and user management efficiency by 30%.
 - Key Technologies :** C#, .NET 6 API, .NET Identity, SQL Server 2022, Visual Studio 2022
 - BabyCare System**
 - Created a Windows Form application for managing student registration, grades, and reports.
 - Added reporting and backup functionalities to enhance usability.
 - Key Technologies :** C#, Windows Forms, SQL Server 2019, Visual Studio 2019

INTERNSHIPS

- **Full Stack Web Development Using .NET – Information Technology Institute (ITI), Minia Branch** (Jul – Nov 2023)
 - Intensive code camp focusing on **.NET Core, API, Angular, and SQL Server**.
 - Developed full-stack applications with clean architecture and responsive UI.

Key Projects

- **Charity System – (Company Project / Toq Information Technology)**
Multi-tenant .NET 6 platform for managing charity organizations, beneficiaries, and service requests with role-based access, OTP authentication, internal communication, dashboards, and donation tracking.
- **ERP System – (Independent Project)**
Multi-tenant ERP solution using .NET 8 API to manage inventory, employees, contracts, payments, and approvals. Implemented ASP.NET Identity, Hangfire, SignalR, and claim-based roles.
- **Lawyer Application – (Independent Project)**
Legal management platform using .NET 6 API and SQL Server to handle roles, cases, costs, reports, and notifications with secure claim-based access control.
- **HotelBooking – (Independent Project)**
Hotel reservation system streamlining room booking and online payments.
Tech: C#, API 6, .NET Identity, Localization, SQL Server 2022, Visual Studio 2022
- **HotelSignature – (Independent Project)**
Internal hotel workflow system for creating and signing forms (accept/reject) among departments.
Tech: C#, API 6, .NET Identity, SignalR, SQL Server 2022, Visual Studio 2022
- **Bookify – (Technical Test Project)**
Library management website for borrowing books via subscription. Built as a technical test demonstrating full-stack ASP.NET Core skills.
Tech: ASP.NET Core, .NET Identity, SQL Server, JQuery, AJAX, JavaScript, Bootstrap

CERTIFICATIONS

- C# Basic – HackerRank (Sep 2023)
- Freelancing Basics – Mahara Tech (Aug 2023)
- Getting Started as a Freelancer (Upwork) – Mahara Tech (Aug 2023)
- Getting Started as a Freelancer (Mostaql) – Mahara Tech (Aug 2023)

SKILLS & ABILITIES

Technical Skills

- **Backend Development:** ASP.NET Core, Web API, .NET 6/8, C#, LINQ, Entity Framework Core, Identity, SQL Server
- **Frontend Technologies:** HTML, CSS, Bootstrap, JS, Angular, JQuery, AJAX
- **Architecture & Patterns:** Clean Architecture, CQRS, Repository Pattern, Unit of Work, SOLID Principles
- **Other Tools & Technologies:** SignalR, Firebase, Automapper, Mapster, Localization, Globalization, SendGrid (Emails), Hangfire, Payment (Stripe, Paypal, Paymob, Paytabs, Moyasar), Version Control (Git/GitHub), Visual Studio 2019/2022
- **Databases:** Microsoft SQL Server 2019–2022
- **Testing:** Integration Testing, Unit Testing (Basic)

Soft Skills

- Problem Solving & Critical Thinking
- Communication & Collaboration
- Time Management
- Working Under Pressure
- Continuous Learning

LANGUAGES

- **Arabic:** Native
- **English:** Very Good

PERSONAL DETAILS

- **Date of Birth:** 7 Nov 1996
- **Military Service:** Completed (Jan 2022 – Mar 2023)
- **Nationality:** Egyptian
